

Interactive

Level 2

Element B

**Respond to the sounds
I make by making
sounds yourself**

Card
10

Interpret the sounds I make as efforts to reach out to you:

- make short bursts of sound with your voice in response to my vocalisations
- you could imitate what I do or do something different
- use a microphone and amplifier to enhance the effect of our vocal sounds
- place a large ocean drum across our laps and make sounds with it in response to any sounds I make
- now try the same activity using two separate instruments of the same kind
- remember, I may need plenty of time to process what is going on – be patient!
