

Interactive

Level 2

Element C

**Interact with me
through sound in
different contexts**

**Card
11**

Different situations may stimulate me to interact in different ways:

- our voices will sound very different in the swimming or hydrotherapy pool
- there may be outdoor instruments in the adventure playground that we can use together
- everyday soundmakers can be just as much fun, like taking it in turns to hit a log with a stick
- I may become more (or less) vocal and receptive in the car or minibus
- different people's voices may catch my attention and make me want to respond in new ways
- the time of day may be important – am I a lark or an owl?
