

Proactive

Level 4

Element B

**Encourage me to
sing or hum short
phrases from
familiar songs**

Card
38

Encourage my vocal efforts by amplifying them:

- let me sing the bursts of music that I've been hearing into a microphone with an amplifier
- show me where the speaker is, then try putting it in different places
- show me how the controls on the amplifier work
- if the equipment has the facility, try introducing different effects such as echo and reverberation
- use looping software to build my short bursts of music up into longer sequences
- record what I do so I can listen back to it
