

Proactive

Level 4

Element C

**Help me to play fragments
of music on instruments
or using technology that
responds to movement**

Card
39

Help me to play some fragments that I have heard before, and encourage me to make some up:

- stick a marker (tactile and visual) on 'middle C' on a keyboard and show me where it is
- show me, hand *under* hand, how to play simple patterns of three or four notes that start on C
- help me to use one finger to start with – show me how to find the notes next to each other by touching or looking (or both)
- then encourage me to use my thumb and other fingers too – use either hand
- show me how to play the jingles, ringtones and other bursts of melody that I hear around me
- try playing fragments of music using touchscreen technology
