

Proactive

Level 4

Element D

**Make me a game with switches or other technology that uses recordings of ringtones and other electronic sounds**

Card  
**40**

## **Help me realise that everyday bursts of rhythm and fragments of melody can be put together to make longer segments of music:**

- attach some doorbells to a sheet of wood and show me how they make similar (or different) patterns of notes
- help me link the patterns together to make short pieces of music
- encourage me to sing the 'doorbell' music
- encourage me to play the same patterns on a keyboard or other instrument
- make recordings of me in action
- can I play along to my earlier efforts?
